JUNE 1966

NEXT MEETING JUNE 8 AT RED CROSS BUILDING

The next club meeting will be on Wednesday, June 8, at 8 p.m. in the Red Cross Building on Cascade. The meeting will be just a few days before the big convention, so you won't want to miss this one. Attend and learn all the last minute details of the big affair on the 18th and 19th---the ARRL convention in the City Auditorium.

George Kowalski, WØGCH, will have a movie on "Integrated Circuitry" for the entertainment portion.

The coffee and doughnuts, as usual, will be good, as will be the door prizes. Don't miss this one!!!

TWO NEW OFFICERS ELECTED

The resignation of Bill Haskin, KØCEN, as president of the club due to illness and the succession to the presidency of Art Mayer, WAØAEH, created a vacancy on the club Board of Directors and left the club without a vice president. ...

(Continued on Page 3)

INTERESTING AND BUSY PROGRAM PLANNED FOR CONVENTION

A fine program is in store at the Colorado Springs City Auditorium on Saturday and Sunday, June 18 and 19 for the 1966 Rocky Mountain Division, ARRL convention, thanks to the efforts of Wally Rowland, KØWMD, and Ed Pompea, KØZPG.

Following is a schedule of those events which will take place during 2 days of the convention:

SATURDAY, JUNE 18

8 a.m. to 6 p.m.

Convention Registration. Convention station on the air.

10 a.m. to 11 a.m.

Amateur Public Service Corps Meeting. Little Theater. Conducted by George Kowalski, WØGCH--- with AARL Div. Director Carl Smith, WØWBJ, and Dick Baldwin W1IKE, ARRL Hq. Staff.

Maser Talk and Demonstration. Main stage. Dave Edwards, Mountain States Telephone Company.

Editorial

YOUR HELP IS NEEDED!

There is only one justification of any club paper---to print the news of for, and of interest to the members of the club. That is the kind of a publication I hope to make of Ø Beat.

However, I cannot do this without the help of every member of the Pikes Peak Radio Amateur Assn. In order for Ø Beat to contain what you want to read, I have to know what you want.

In order to be sure that all news of the Association appears, I have to know about that news. That is where a lot of help from each of you---an item about a PPRAA member, a special diagram, even a letter to the editor sent or phoned to me, will help make this a very interesting paper.

Remember, this is your paper. A request for something special will result in my best efforts to get it in print. With your help we'll make this the best paper in the Rocky Mountain Division.

Frank - WØHWH

HOW TO KEEP A HAM HUBBY HAPPY

By Rosemary, WAØMNL

One watt hour before Ham hubby returns home from his work day, filter dust out of the variable rooms---remove kids cycles from driveway.

Suppress the younger harmonics, resort to switch control only after secondary emission of QRM.

Greet OM with a co-efficient choke coil about the neck and low resistance.

Place his chassis at the table and proceed with plate modulation filled to capacitance with a Ham supper in series with coffee and dessert. Permit him to set his belt on loose coupling for good impedance.

For complete neutralization, parallel with hot coffee. Don't be guilty of improper operating conditions when refilling cup. Be an unmodulated carrier for 100% efficiency.

Hubby will think you an Al heptode CW (cute wife) and you will have the best FCC (fabulous compatible casanova) at your house and this is more valuable than any crystals or j'oules.

CB'ERS 'CUTTING IN' ON PIKES PEAK HILL CLIMB?

The word from Nip, KØ CVG, to the effect that CB'ers were probably going to handle part of the communications on the Pikes Peak Hill Climb, a job formerly handled by amateurs, elicited a good deal of discussion at the May meeting.

The feeling of most members was that the CB communications would not be reliable at a time when such reliability would be desirable, when lives or injuries might be at stake.

Wally, KØ WMD, also reported on his talk with the Hill Climb Assn. and assured the club membership that it was not yet final whether or not the CB'ers were going to handle any part of the communications for the climb.

It was agreed that a committee would be appointed to look further in to the matter.

FOOT RACE PARTICIPATION

Eldon Lewis, WAØ ERA, has announced that the Association will be expected to furnish communications for the Marathon Foot Race on August 21. At the May meeting, Eldon was appointed chairman of the committee for the race, with John, KØ SLM, Larry, WAØ DGL, and George, WØ GCH, to help him arrange the details.

NEW OFFICERS

(Continued from Page 1)

An election to fill the vacancy on the Board was held at the meeting of May 11, and John Summers, WAØ HHN was elected to fill that vacancy.

The board then met to elect one

BRING THE FAMILY TO THE FRIDAY JUNE 17 GET TOGETHER

Don't make any (other) plans for Friday night, June 17. As Wally, KØ WMD, announced at the meeting in May, the entire Association membership and their families are invited to the City Auditorium for a get together, with free coffee promised for those who attend. Be sure to be there, your help may be needed in some last minute setting up of displays for the big ARRL convention the following day.

Stage. Ron Given, Hewlett-Pack-
ard Company.

11 a. m. to 12 Noon

VHF Scatter Communications Little
Theater. Don Hilliard, WØEYE.

(Continued on Page 6)

"GETTING TO KNOW YOU"

A new feature, designed to better acquaint all the members of the Pikes Peak Radio Amateur Association with other will start next month.

Under the heading of "Getting To Know You," there will be a series of short biographical sketches of the club members each month with six or more sketches planned each month until the entire membership is covered.

Each sketch will contain the call, name, present (and past) occupation, employer(s), length of time operating under present call, any others calls in past, (when and location), equipment

now being used and hobbies other than amateur radio.

The sketches should be a means of the members becoming better acquainted with each other and possibly a way to "match up" interests in other hobby fields.

To illustrate the series, the editor is listing his biography (the first one for which he has complete data), which appears on Page 3.

A form to provide the editor with the necessary information for this series appears below. Please fill it out and hand it to the editor or secretary at the next meeting.

CONVENTION PROGRAM

(Continued from Page 4)

11:30 a. m. to 12:30 p. m.

SCM/SEC/Traffic Meeting. Room 1.

 Theater. Cop Macdonald, WAØ-
 NLQ.

1 p. m.

Sunday Luncheon. Main Auditorium.
 Main Speaker: Lew McCoy, W1-
 ICP. ARRL Hq. Staff. "DX'ing

FUTURE ARTICLES FOR Ø BEAT

Ø Beat has on hand two excellent construction articles by Max Main, K-ØBFH, which will appear in future issues. Plans to use one of them this issue were delayed due to lack of time (with all the convention publicity) to put the accompanying diagrams on multilith masters for reproduction.

SOMXTHING TO RXMXMBXR
